Juan Antonio González Orbe	Development Team

DISCUSSION

- Comprehensive review of both the mobile and web project's completion status, highlighting the milestones achieved and the overall quality of deliverables.
- Detailed analysis of the integration process, where the web and mobile applications are harmoniously connected with other applications, ensuring seamless interoperability and functionality.
- Sharing of insights and feedback on the user experience across both platforms, considering the integration with third-party apps.
- Exploration of potential enhancements and improvements post-integration, aiming for continued optimization in the face of evolving user needs.
- Reflection on lessons learned throughout the completion and integration phases, setting a precedent for future projects and collaborations.
